THERE'S A CHAIR IN THERE

Eames-style leather office chairs with clean, simple lines provide an immediate modern and fresh impact in your home office.

The chairs feature 100 per cent top grain Italian leather; low back; a set of removable chromed castors and slides; polished die cast aluminium base, five leg base, frame and arms; 360 degree swivel and a one touch gas lift height adjustment tilting system.

The construction is of polished die cast aluminium base and the frame is lightweight and corrosion resistant. Available in black, white, tan and cream (image bottom right).

Price: from \$499

PAVILION CHAIR

This modern home office chair features sleek minimalist styling, a blend of art and function. The Mies Pavilion Chair is made of 12 mm solid stainless steel seamlessly welded and polished to a high lustre, comfortable foam wrapped in 100 per cent genuine semi-aniline Italian leather.

Features include:

- 100 per cent genuine top grain Italian leather
 - Semi-aniline leather all the way around (front, back and sides)
 - 12 mm solid stainless steel
 - 100 per cent genuine Italian leather straps
- It comes in Black, White, Red and Brown leather; other leather colours available upon request.

Price: \$849

LAMPING IT UP

This table lamp changes when the light is on or off. When it is off you see the detailed shade with delicate lines. It appears to be a standard shade. When the light is turned on, the shade becomes transparent revealing the sculpted interior. Its clean design and dimmer makes it different from many other table lamps.

The contemporary table lamp changes the space it resides in with a simple flip of the switch. As you dim this light the transparency dims as well.

Price: \$99

HOME OFFICE FURNITURE FOR THE FASHION CONSCIOUS

The MIKAEL corner workstation, (\$299), accommodates all your computer equipment in a small space. Metal dividers keep binders and papers in place, features an adjustable shelf allowing you to adjust according to need. Holds up to a 19" monitor and a magnetic writing-board is also included.

The VIKA BLECKET/VIK ARTUR table (\$279) is made from solid wood. The glass top can be illuminated from underneath to give an ergonomic work environment. Features a rail along one long side to keep papers etc. in place. A practical pen and paper holder; can be moved along the top. The tabletop can be adjusted into different positions for a flat or angled position and there is also a practical storage shelf on the lower section for a computer or printer, for example.

The JULES swivel chair is (\$89.00) not only stylish but comfortable as well and the height can be adjusted to create a comfortable seating posture.

The MIKAEL computer table with castors, (\$79) pullout panel, makes keyboard and mouse easy to reach. Two of the castors are lockable making the unit easy to move and simple to lock in place. The lower shelf can be mounted to the right or left to suit your personal needs. Holds up to a 17" monitor.

The VIKA AMON/VIKA ANNEFORS table (\$232). A long tabletop and legs with storage provide enough generous workspace for two. An adjustable shelf provides space for a computer so you can adjust according to need. Assembly is made easy with predrilled holes for legs.

OFFICE CHAIR FOR BAD BACKS

A new chair has been released to help sedentary, desk-bound people to get active while sitting down, in an effort to ease lower back pain.

The new Active Balance seat from Bad Backs uses an Adjustable Dynamic Joint (ADJ) and enables the body to make small, constant movements to eliminate static strain and pressure, whilst in the seated position.

The Active Balance seat continuously redistributes stress across muscles and ligaments providing a way to reduce the harmful effects of prolonged sitting upon the human frame.

The patented ADJ joint, which provides flexible movement in 360 degrees, allows users to exercise and strengthen core muscles to promote better posture, whilst assisting with circulation and balance.

Price: \$299
